

JANUARY 2025 DISTRICT COUNCILS
ENVIRONMENT ANNOUNCEMENT

Please remember that one of President's McCloskey's Grand Initiative's is for our clubs to plant a total of 130 Arbor Day or complete Earth Day projects. The winter months are a great time to plan for it. This year Earth Day is celebrated on April 22. EARTHDAY.ORG is the world's largest recruiter to the environmental movement. The website has many resources, such as quizzes, fact sheets, and other articles to help to help you get started. This information will also be in the February ALMANAC.
